WORK EXPERIENCE

Eaton Corporation

Calgary, AB

Continuous Improvement Intern

May 2024 – Present

- Assumed the role of product specialist along with all duties associated when filling in for a full-time employee on five weeks leave.
- Handled the operations of the panel board line, maintaining a safe level of uptime to ensure production targets were met.
- Redesigned inventory layout and implemented a new labelling system, reducing item retrieval time by ease of access and standardization.
- Developed and implemented protocols for efficient data loading, minimizing errors and improving data reliability.

Peoples Trust Company

Calgary, AB

Real Estate Analyst

Feb 2022 – July 2023

- Provided Underwriting for CMHC insured commercial loans to verify information, calculate risk, and insert profit spread.
- Utilized excel to build cashflow models of pre-existing or construction-based properties, using financials and broker provided packages.
- Verified new purchases of existing properties by either completing an internal assumption or CMHC approved replacement of covenant.
- Created relationships with mortgage brokers when working on new deals, gathering documentation and networking at events.
- Maintained strong lines of communication with colleagues to assure deals are vetted and processed correctly.

Universal Rehabilitation Service Agency

Calgary, AB

Data Analyst and Quality Assurance

Nov 2021 – Feb 2022

- Developed and utilized databases with Microsoft Excel to improve quality control.
- Modelled confidential data with accurate charts, metrics, and trends to evaluate programs impact.
- Audited licenses and program files vetting for any legal mistakes or incorrect forms in compliance with accreditation agency standards.
- Proposed new data collection strategies while maintaining great verbal and written communication with management to improve the development of documentation and policy.
- Initiated a research project with Python and its statistical analysis modules to analyse program goals and develop dashboards with Power BI.
